Anadolu University
Management Information Systems
2022 - 2026

PERSONAL INFOTMATION

- Address: Bursa/Turkey
- Driver's License: B
- LinkedIn: /in/abdullahyanik

LANGUAGE

- English   *B2*
- German   *A2*

ABOUT

I developed projects on wireless communication and movement via UAV with Python in the software field under the title of team activities within the Mechatronics Engineering department.

During the internship processes, I developed myself under the headings of Industrial Design and Automation Systems.

I have attended various courses in the fields of Web Design & Programming, which I have been interested in since my childhood, and developed my own projects.

PROJECT

Quiz Of Mine

It's a PHP based web project I developed to test how well people know each other. https://quizofmine.com/

Articles For World

A Wordpress-based English website where I share articles on my research that I opened to improve myself both in the field of content production and on Wordpress. https://articlesforworld.com/

Aydın Kalemler

The blog site that we plan to turn into an e-journal when enough readers are reached. We allow writers to write in-depth articles in their areas of interest. https://aydinkalemler.com/

ABYNK

My personal website where I present my own introduction and projects. I will create the blog section soon. https://abynk.com/
